LittlePDF Markdown Example

This is a demonstration of the markdown to PDF conversion feature.

Features

LittlePDF supports:

- **Headers** - Multiple levels (H1, H2, H3)
- **Lists** - Both bullet and numbered
- **Rules** - Horizontal dividers
- **Word Wrapping** - Automatic text wrapping
- **Pagination** - Multi-page documents

Bullet List Example

- First item
- Second item
- Third item with longer text that will wrap automatically

Numbered List Example

1. First numbered item
2. Second numbered item
3. Third numbered item

More Content

This demonstrates how markdown content is automatically converted to a well-formatted PDF document.

The library handles:
- Text alignment
- Spacing
- Multiple pages
- Clean formatting
